**League updates:**

**City-** The commissioners are not sure when or where finals will be. Attendance has been down this season, however, teams have been able to pick up players and play their games.

**Advanced** -There hasn't been enough regular attendance to have four teams. The commissioner has been splitting up the players into two even teams and then allowing someone to captain the team. Stats are being taken for the players to see at the end of the night.

**Rec night** - There have been 15-20 people attending Sunday night recreational night over the last several months. It is helpful when experienced players come to help and play.
